

## Freeware / Open Source October 23, 2014 Notes and Links

At this session there were three main topics shown and discussed:

- [Calm.com](http://www.calm.com). A web based service, also available for iPhone and Android, to help you relax. Steve found this through "gizmo's freeware".  
<http://www.techsupportalert.com/content/and-relax.htm>
- **How to Create a Strong Password (and Remember It)**. An article from HowToGeek in keeping with the October general meeting.  
<http://www.howtogeek.com/195430/how-to-create-a-strong-password-and-remember-it/>

- Nine Shortcuts to Speed up Internet Browsing that You May Not Know. An other article from "gizmo's freeware".
